Registered mail should be at postoffice half an hour before mail closes.

Mrs. John Blood, Jr., is visiting her former home in Lewiston, Pa.

Mrs. K. E. Fifield, who has spent a week here, left Monday for Stonington.

The festival chorus will meet for rehearsal to-morrow evening at Society hall.

Arthur I. Saunders, who has been seriously ill, is somewhat improved in health.

Albion Wood, who has been critically ill of pneumonia the past week, is improving.

Mrs. Herbert R. Holmes left Tuesday for New York to visit her daughter, Mrs. Pearl Thorsen.

Mrs. L. M. Smith left Monday for a month's visit at her former home in Lynchburg, Va.

Capt. Whitney B. Lowe and wife, of Deer Isle, are guests of Mrs. Lowe's sister, Mrs. B. T. Sovie.

Mrs. Electa L. P. Brown has purchased the Stephen Gross house on Liberty street, and is occupying it.

A. W. Joy and family, of Bangor, are in Ellsworth for the summer at the old homestead near Pond spring.

The many friends of William H. True will regret to learn of his serious illness at his home on Chapel street.

The third degree will be worked on three candidates in Lygonia lodge, F. and A. M., to-morrow evening.

Mrs. A. M. Hopkins, who has been quite ill for the past week, is, her many friends will be pleased to learn, better.

There will be a ball game at Wyman park Friday afternoon between the West Sullivan and Ellsworth high schools.

Miss Jessie Morang, who has been attending Columbia university, New York, arrived home Saturday for the summer.

There will be no session of the city schools to-morrow afternoon, out of respect to former Superintendent John F. Royal.

Mrs. Chester L. Bailey, after spending a few days with her parents, Capt. Roland C. Bonsey and wife, in this city, left for her home in Searsport Friday.

At the Congregational church next Sunday Miss Brown will play for a prelude Hollins' "Spring Song"; for an offertory Liszt's arrangement of Wagner's "Evening Star".

Walter Smith, who has been running on a steamboat line out of Key West through the winter, is home for a short visit. He will run this summer on the Boston-New York all-water route.

The Ellsworth local union of the W. C. T. U. has elected officers as follows: President, Mrs. Julia A. Chatto; vice-president, Mrs. Howard Dunn; secretary, Mrs. Nettie Fullerton; treasurer, Miss Minerva Jordan.

There was a good attendance at the Village improvement society concert and ball at Hancock hall last evening. Pullen's Bangor orchestra gave a delightful concert, after which dancing was enjoyed.

Sub-Master T. P. Packard, of the Ellsworth high school, was called to Houlton Monday by the death of a brother-in-law. The illness of Principal McLellan the same day caused the closing of the school for the day.

Ellsworth and Brewer high school ball teams played at Wyman park last Wednesday afternoon, the visitors winning by a score of 19-3. The game scheduled for Saturday with Holden was cancelled because of rain.

Albert N. Cushman, who has been employed by the Edison Electric Lighting Co. in Boston for the last ten years, has returned to Ellsworth with his family, and is occupying his place on the Surry road for the summer.

The Thursday club, assisted by the other committees of the Congregational church, will serve a supper at the vestry to-morrow evening at 6 o'clock. The usual afternoon meeting of the club will be omitted this week.

In the Methodist church next Sunday, at 10:30, sermon, "The Life that Tells." Solo by Mrs. T. S. Bridges. There will be an evangelistic service in the evening at 7:30. Subject: "A Man Who Fell." A cordial invitation is extended to all.

Oliver L. Anderson, an Ellsworth boy, who for eleven years has been with the Cambridge (Mass.) Chronicle, for several years foreman of the job printing department, has taken a new position as manager of the Perry Print Shop, Cambridge.

A new organization in the Methodist society is a Calendar society, organized

last Monday evening. There will be a social evening next Wednesday at the vestry. No admission will be charged, and the new society invites a large attendance.

Last Saturday the East Side youngsters walloped the West Siders at baseball by a score of 19 to 12. The winning battery was: Falvey, catcher; McGown and Austin, pitchers; the losing battery: Harrington, catcher; Bresnahan and Dorigan, pitchers.

A reading and game-room for boys will be established in the Methodist vestry in the near future; also a society of "Knights of King Arthur" will be organized. Boys who wish to join either or both societies are requested to see the pastor, who hopes for the hearty co-operation of parents in this movement.

The woman's relief corps will meet at Grand Army hall to-morrow afternoon to make wreaths for Memorial day. All members are requested to be present. A special invitation is extended to the ladies of the city interested in this work to assist. Friday, members of the relief corps are expected to furnish cake for refreshments to be served after the exercises.

Sidney R. Bonsey, who has been in the Northern Maine Junction and Searsport run as mail clerk for nearly six years, has been transferred to the Bangor and Van Buren route, and will begin upon his new run next Saturday. Mr. Bonsey was given a surprise party at the home of Mrs. E. C. Pike at Searsport last Friday evening, and presented with a beautiful signet-ring by his friends.

Interesting union memorial services were held at Hancock hall Sunday evening. Members of Wm. H. H. Rice post assembled at Grand Army hall, and marched to Hancock hall. Rev. T. S. Ross, pastor of the Methodist church, delivered the sermon, a stirring appeal for a religious awakening in Ellsworth. Revs. P. A. A. Killam, R. B. Mathews and O. J. Guptill assisted in the service. There was singing by the Ellsworth male quartet.

Harry L. Crabtree expects to leave Ellsworth next Saturday for New York. For the past fifteen years Mr. Crabtree has been the secretary and treasurer of the Ellsworth festival chorus, and as a token of its appreciation of his service the chorus has presented him with a handsome gold-mounted fountain pen; on it is inscribed: H. L. C. from E. F. C. The presentation address was made by J. O. Whitney, president of the chorus. Mr. Crabtree feelingly expressed his appreciation of the gift.

Rev. A. H. Coar, of Holyoke, Mass., a former pastor of the Unitarian church in Ellsworth, has been assigned by the American Unitarian association for special work in Hancock county during the coming summer. Arrangements will probably be made for the reopening of the Unitarian church in Ellsworth at least during July and August, when some of the foremost Unitarian ministers of the country, who spend their summers in this vicinity will be heard, among them Van Ness, Hudson, Sanderson, Hawes and Wilson.

Friday, Memorial day, will be observed by Wm. H. H. Rice post, G. A. R., in the usual manner. The full program for the exercises of the day was printed in THE AMERICAN last week. Details from the post will visit the various cemeteries in the city in the morning to decorate the graves of soldiers. The members of the post will meet at Grand Army hall at 10 o'clock. At this time a vote will be taken as to services at the soldiers' monument. In recent years this service has been omitted, as the march up Bridge hill and back is a hard one for many of the veterans. At 2 o'clock the Memorial day exercises will take place at Hancock hall. Dr. N. C. King, of Ellsworth, will deliver the address.

Street-Commissioner Marden has finished rock-crushing in the Hagerthy field on Bridge hill for the present. The crusher and bins are to remain where they are, but the boiler has been moved back to the old crusher on Townhouse hill, and from there stone will be used on the piece of State road to be built north from that point. Crushed rock has been laid on the Bucksport road from the junction of the Surry road up to the Capt. S. A. Goodwin house. The ledge in front of the Goodwin house, which narrowed and sloped the street at that point, has been blown out, making a much-needed improvement. All the wooden sidewalk on this street has been removed and replaced with crushed rock; this, too, is a much-needed improvement.

MOUTH OF THE RIVER.

Mrs. Nell Sadler is spending a week in Bangor.

Mrs. Sophia Dodge went to Hancock last Saturday.

Capt. D. F. Clonson is at home working on his boat, Lehi.

The infant daughter of Arthur Jones and wife is ill of tonsillitis.

Mrs. Endora Garland, who has been very poorly the past week, is better.

Capt. H. C. Ray started on his first fishing trip last Sunday. His son Henry went with him.

Mrs. Agnes Alley, of Bar Harbor, was called here by the illness of her niece, Miss Caro Pray. Miss Pray has been very ill of pneumonia, but is now able to sit up a while each day.

Much sympathy is felt for Capt. Ernest Ray and wife in the death of their little daughter Dorothy, which occurred Sunday, after three weeks of intense suffering of spinal meningitis. This is the third child given them to love for a short time, before being called from loving arms and constant care.

Union Trust Co.

OF ELLSWORTH.

A STRONG BANK

A strong bank must have a record for honest dealings and ability to make good all promises. It must be able to serve all patrons alike, those with large or small accounts, and help them in the transaction of their business.

The Union Trust Co. of Ellsworth represents all these qualities; during the many years of its existence it has demonstrated ability to protect, help and make convenient all business transactions passing through this bank.

The continued growth is positive proof of a well-regulated method of exchanging safe banking service. Confidence in the bank has been inspired through the rigid supervision of our strong board of directors. Every customer who has had dealings with this bank has helped to bring another, until to-day this bank stands for good, safe, serviceable banking for the individual or firm which has money passing through its hands.

If not already a customer of this bank, communicate with us, and we will tell you how to become one. Opening accounts either in savings or checking by mail or in person is a simple matter.

UNION TRUST COMPANY.

"Look most to your spending. No matter how much comes in, if more goes out, you will always be poor."

GOODWIN DEAD.

Congressman from Third District Passed Away To-day.
Hon. Forrest Goodwin, of Skowhegan; congressman from this district, died early this afternoon at a hospital in Portland.

ELLSWORTH FALLS.

Miss Helen York, of Portland, is the guest of A. W. Ellis and wife.

Mrs. Henry Moore and child visited relatives in Cherryfield last week.

Mrs. Orlando Brooks, of Corinna, is spending a few days here with relatives.

W. B. Cram and wife, of Bangor, have been visiting relatives here since Saturday, returning home to-day.

Pearl Moore, wife and daughter, and James Taylor and wife, of Bangor, were here over Sunday, guests of Martin E. Salsbury and wife.

W. H. Brown was home from East Machias over Sunday. Mr. Brown expects to finish work there on the mill building for Bangor parties in about three weeks.

Arthur Foster is home from the University of Maine and confined to the house by an attack of rheumatism. His condition is improved since coming home a week ago.

John Bresnahan and wife have rented the Harry Sargent house on the Waltham road, and expect to begin housekeeping the coming week.

James F. Farmer, of Boston, came Monday morning looking after his interests at his hotel at Green lake. Mr. Farmer has had a man there for several weeks getting ready for the season's business.

The opera, "The Merry Milkmaids," the cast of which was published in last week's issue, was presented Saturday evening in the vestry to an audience that filled the building to the doors. The cast was composed of local talent, with the exception of Miss Phillips, as queen, and Dexter Smith, of Bangor, as judge. Miss Phillips' rendition of her part was fine, as was also that of Mr. Smith. The singing of Miss Joy, Miss Barron, Mrs. Austin and Mr. Joy was well received. The presentation was a decided compliment to Miss Phillips, and every member who took part. Proceeds, about \$50.

NORTH ELLSWORTH.

J. H. Nason is building a store for Hiram Danico at Nacolin.

Mrs. Mary Perry is at her home in Sorrento for a short stay.

Harold Maddocks is at home from Bar Harbor, where he has been employed.

Mrs. H. F. Maddocks is spending a few weeks at Bar Harbor with her daughter, Mrs. Fred Moore.

Chelsea Piper and wife, of Eastbrook, were guests of their daughter, Mrs. Arthur Nason, over Sunday.

COMING EVENTS.

ELLSWORTH.

Thursday, May 29, at Congregational vestry—Supper; tickets 25c.
Saturday evening, May 31, at Society hall—Dance.

Tuesday and Wednesday, June 3 and 4, at Ellsworth Falls—Annual meeting of Hancock association of Congregational churches and ministers.

Friday, June 20, at Baptist church—Annual meeting Hancock county W. C. T. U. Speaker, Miss Rose Adella Davison, of Ohio.

CHRISTIAN ENDEAVOR.

Prayer Meeting Topic For Week Beginning June 1, 1913.

Topic.—The Ideal Christian.—VI. His Bible Study.—Deut. vi, 1-3. (Consecration meeting.) Edited by Rev. Sherman H. Doyle, D. D.

The "righteous man" of the Old Testament corresponds to the Christian of the New. Of Him the psalmist says, "His delight is in the law of the Lord, and in His law doth he meditate day and night." If the Old Testament saint found delight in the "law of the Lord," how much more should the Christian of today rejoice in the Scriptures, since he has the gospel as well as the Law! The Bible should indeed be his joy and delight, and he should study it prayerfully, systematically and intelligently.

The ideal Christian should study the Bible because it is God's word. The words which Moses commanded the children of Israel to lay up in their hearts to teach to their children and to make prominent in their daily lives were not his words, but God's words. They were, he says, "the commandments, the statutes and the judgments which the Lord your God commanded to teach you that ye might do them." The same is true of all the Scriptures. "Holy men of old spake as they were moved by the Holy Ghost." If the Lord is "our God" we should certainly study the revelation which He has given to us.

The ideal Christian should study the Bible because of the beneficent results that follow such study. Bible study is absolutely necessary to the Christian's life. It supports his spiritual life as bread supports his physical life. It guarantees freedom to him. "Ye shall know the truth, and the truth shall make you free." It makes "wise unto salvation," and the salvation of the soul is the most important issue in human life. It brings him into touch with the mind and will of God, without which it is impossible for him to do God's will, which is the chief end of his existence.

It instructs him as to the purpose of life and points out to him how that purpose is to be accomplished. It is the guiding star of his life in this world and shows him the way to heaven. It is the masterpiece of all literature and is an inspiration to the mind as well as life to the soul. It requires no argument to prove that a book of such wonderful characteristics and such boundless possibilities should be the daily companion of the disciple of Jesus Christ, who Himself is the central figure of the Bible and whose mission to earth it is especially ordained to declare.

The ideal Christian should study the Bible with the purpose in view of practicing its precepts. The words of the Lord were given to His people through Moses that they "might do them." Bible study is fruitless without practical application to our daily lives. We are not to be "hearers of the word only, but doers of it." The test of the value of Bible study to us is in the doing.

It is "he that heareth these sayings of mine and doeth them," says Christ, who is like the man who built his house upon a rock. Hearing without doing is worthless. Study without obedience only aggravates our offense. The Bible study that counts is that which is practiced in the daily life. Are we making the Bible "the lamp to our feet and the guide to our path?"

BIBLE READINGS.

Ps. i, 1, 2; xix, 7-14; cxix, 105-112; Matt. iv, 1-11; v, 1-16; John v, 39-47; xv, 10-14; Acts xvii, 10-12; Eph. vi, 10-18; II Tim. iii, 16, 17; Heb. iv, 12; Jas. i, 22-25.

"Coaching" in Churches.

The public school until recently has been a mill that ground alike whatever came into its hopper—coal or marble, wheat or pebbles. The bright scholar had too little to do, the average scholar got along fairly well, and the poor scholar, after perhaps years of heartache and desperate plodding, finally was tossed out upon the rubbish heap. In these wiser days the schools are installing "coaching teachers," whose duty it is to give special attention to the poorest scholars in the various classes and try by earnest personal work to place them at least in the position of the average pupils.

Under this system in one school near Boston where six nationalities meet only 14 per cent fall to go on with their classes. Three years ago, under the old system, 50 per cent of the pupils fell by the wayside.

Now, just this work of coaching is done in our churches by the Christian Endeavor societies, Junior, Young People's and Senior. With a beautiful brotherly spirit the workers that advance more rapidly help on those that move slowly. That is what our look out committees do, and our prayer meeting committees, and, indeed, all our other committees. Christian Endeavor means that the Christians, young and old, are first helping themselves to the strength that Christ bestows and then helping others to it.

No one left behind, no one falling by the way—that is the spirit of the best modern education, and it is the spirit of Christian Endeavor.—Arrow in Christian Endeavor World.

A Truth For Contemplation.

Win a soul to God and you have set in motion impulses which will vibrate when time is a memory, a bubble on the ocean of eternity. Here is a truth for the earnest contemplation of every Christian Endeavorer.—F. B. Meyer.

Mutual Benefit Column.

EDITED BY "AUNT MADGE".

Its Motto: "Helpful and Hopeful."

The purposes of this column are succinctly stated in the title and motto—it is for the mutual benefit, and aims to be helpful and hopeful. Being for the common good, it is for the common use—a public servant, a purveyor of information and suggestion, a medium for the interchange of ideas. In this capacity it solicits communications, and its success depends largely on the support given it in this respect. Communications must be signed, but the name of writer will not be printed except by permission. Communications will be subject to approval or rejection by the editor of the column, but none will be rejected without good reason. Address all communications to

THE AMERICAN, Ellsworth, Me.

MY MEMORIAL DAY.

[Katharine Kiefer.]

The graves of my beloved dead, how far from me they lie, Where sweet memorial words are said, Beneath a summer sky! The dew may weep where low they lie. My tears fall far away. On alien soil, 'neath alien sky, on this Memorial day.

The nightly stars keep watch and ward above the sacred spot; God's wild flowers deck each burial mound by hand of man forgot. Dear graves, a thousand miles away, my thoughts are with you there! I hear the muffled drum to-day, the solemn word of prayer.

I see the banner freshly set above that soldier's breast, Its colors all untarnished yet, where low he lies at rest. Shine sun! Wave, flag! Above his sleep, I, too, would bend and pray.

Though distant, in my heart I keep a true Memorial day.

—Sent by Aunt Emma.

Dear M. B. Friends:

The real significance of Memorial day is fully understood only by those who saw for themselves the conditions and passed through the experiences of the Civil war. That the observance of this day should be perpetuated, with its beautiful service, is most desirable. And as year after year the children take part in gathering and placing floral remembrances on the last resting-places of the soldiers, so will they be learning the yearly-repeated lesson of patriotism, and of reverence for those who were willing to sacrifice themselves for the honor of their country and its flag.

Thoughtful citizens may be anxious for the future of this great country, but as long as these little flags—emblems of national life—wave softly in the breezes over the graves in so many cemeteries in our land, so long will they tell to the living the story of faithfulness, devotion and loyalty to the principles on which our government was founded.

Sleep, comrades, sleep! Our offerings here we bring: A grateful nation each returning spring Remembers thus her dead! And on each soldier's grave There floats the flag he gave his life to save. While flowers their fragrance shed: Sleep, comrades, sleep!

From out our crowded calendar One day we pluck to give: It is the day the Dying pause To honor those who live.

You will all be glad that this week we hear from so many dear old friends of the column.

GREAT FOND, May 14, 1913.

Dear Aunt Madge:

I almost envied you when I read how well your house-cleaning was progressing, and I had just commenced, and help is so hard to get here, but I am getting along nicely now. Through the kindness of my friends I got more help than I expected, and shall soon enjoy a clean house.

Nature is dressing tree and field with her dainty shades of green, and we can listen to the robin's song:

"Cheer up! cheer up! cheer! Make the world a happier place Just because you are here."

I should call that lovely pie of H's a "combination pie." I can imagine what a good time you had eating it. I can't duplicate it yet, for I am as far from oranges as she was from lemons. I saw a recipe for salmon pie in my American Woman, that I think good, and very handy. Empty a can of salmon into your pan, make a bowl full of butter gravy and pour over this, then cover with a rich crust of biscuit dough rolled three-fourths of an inch thick, cut a slit in the middle and bake in a hot oven. I add a well-beaten egg to the gravy. With kind wishes to all. E.

WEST FRANKLIN, May 16, 1913.

Dear Friends of the M. B. C.:

Have enjoyed reading all your nice letters, so thought I would tell you so. How very interesting for us all to travel with our friends all over this world of ours, and in imagination we see and hear it all and remember what we can.

I just had to laugh out loud when I read the poem in the last paper, "Ready in a Minute." How true to life, but there is one who is not troubled that way and never will be. Will leave it with you to guess who.

Aunt Maria, I am thinking about your plants this frosty morning. I wonder if they froze. I presume many of you are all done house-cleaning while I have just begun, and that some weeks ago. It is really too cold for me to get away from the fire.

Must say to H. that her pie must have been a "variety pie," so I will give it that name. Would like to have tasted it. Narcissus gave us such a nice letter, hope she will call again. I think if she has returned home she will find it pretty cold up there this week. I fear it has injured the buds on our trees, and the blueberries, as they are loaded with buds.

East, your letter was fine. Hope you had a chance to get some views of the beautiful places you visited. I must say to Dell that I know you are pleased that our governor has taken a step in the right direction. Now, if he will keep right on, also the officers that he has appointed, and the mayors of our cities,

Best Medicine for Colds.

When a druggist recommends a remedy for colds, throat and lung troubles, you can feel sure that he knows what he is talking about. C. Lower, druggist, of Marion, Ohio, writes of Dr. King's New Discovery: "I know Dr. King's New Discovery is the best throat and lung medicine I sell. It cured my wife of a severe bronchial cold after all other remedies failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung cough. Keep a bottle on hand all the time for everyone in the family to use. It is a home doctor. Price 50c and \$1.00. Guaranteed by all druggists.

WOMAN COULD NOT WALK

She Was So Ill—Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Pentwater, Mich.—"A year ago I was very weak and the doctor said I had a serious displacement. I had backache and bearing down pains so bad that I could not sit in a chair or walk across the floor and I was in severe pain all the time. I felt discouraged as I had taken everything I could think of and was no better. I began taking Lydia E. Pinkham's Vegetable Compound and now I am strong and healthy."—Mrs. ALICE DARLING, R.F.D. No. 2, Box 77, Pentwater, Mich.

Read What Another Woman says:

Peoria, Ill.—"I had such backaches that I could hardly stand on my feet. I would feel like crying out lots of times, and had such a heavy feeling in my right side. I had such terrible dull headaches every day and they would make me feel so drowsy and sleepy all the time, yet I could not sleep at night."

"After I had taken Lydia E. Pinkham's Vegetable Compound a week I began to improve. My backache was less and that heavy feeling in my side went away. I continued to take the Compound and am cured."

"You may publish this if you wish."—Miss CLARA L. GAUWITZ, R.R. No. 4, Box 62, Peoria, Ill.

Such letters prove the value of Lydia E. Pinkham's Vegetable Compound for woman's ills. Why don't you try it?

there could be a great "house-cleaning time," and it can be done if they want it done.

Now I think I had better close, for someone else may have a word to say. With best wishes to all. AUNT MADGE.

WEST LYNN, MASS., May 18, 1913.

Dear Aunt Madge:

Will send the poem to you, and if you care to have it printed in the column at any time, you may.

Glad to say my house-cleaning is all done, but am busy sewing. I was happily surprised recently. I went out calling in the evening, and had been gone just a short time when a neighbor came to tell me that my aunt and uncle from Maine had come to see me. I hurried home, and my neighbor was entertaining Aunt Maria and her son-in-law. I was delighted, my husband and brother were at their Old Fellows lodge. Early in the evening my husband came home. He went back to the lodge-room and had my brother come to meet them, for Aunt Maria could not call again as she was going to Whitman for a short stay before going home. We enjoyed every moment. Hope the next call will be more lengthy. Received a card since she arrived home and was sorry to learn that Carolyn was suffering with the mumps. Hope she is better.

I enjoy my M. B. picture; Aunt Maria assisted me in recalling the names of the different ones. I enjoyed Narcissus' letter. Two of my seminary chums were from Presque Isle. I think it is not far from Ft. Fairfield. They used to say there were "no potatoes like those raised in this county." Have not seen them since we parted twenty years ago.

The lilac and cherry trees are in full bloom. Wish I could bring you a bouquet. Decoration day is near by. I hope it will be pleasant here. In the afternoon services are held at Pine Grove cemetery, with an address, and music by the band. In the evening the services are held at the state armory. Addresses are made by different members of the G. A. R., and music is furnished by the school children. Best wishes to Aunt Madge. L. E. T.

EAST SUNKY, May 19, 1913.

Dear Aunt Madge:

I have again been to see Nell and had a fine social call and dinner with her brood—two long tables of little ones. I was so astonished to see the improvement made with a ten-year-old boy I took to her in April, in only six weeks. Mrs. Ellis, the teacher, must be a wonderful woman. She is a sister of Nell and a teacher of the old-fashioned kind, such as M. V. B. writes about in last week's AMERICAN.

Nell spoke of her maybaskets. She was very thankful, and like the children, wants more. Probably she will write about them, so I will not tell it all.

How well the M. B.'s have done by writing of late. It must make Aunt Madge smile to have such helpers at this busy time. Are has been ill; hope she is better. I learned last week where G. is; now don't hide yourself any longer, G.; some of us would have rung your door bell before this had we known where you were. DELL.

Thanks to you all for these nice letters. "Blest be the tie that binds," and all the M. B.'s will say: "So let it be," in concert with AUNT MADGE.

WEST BROOKSVILLE.

Howard and Hope, children of Charles Blodgett and wife, are both ill of measles. Mrs. Harry M. Tapley, son Emory and daughter Clara have returned from a visit in Bangor.

Arvard Nichols has moved his family into the new home which he recently purchased of Gilman Blake. Sewell and Herman Tapley are making extensive repairs on the store recently purchased by Charles Babbidge.

At the parish meeting Tuesday evening, George S. Farnham, O. L. Tapley and Jerome P. Tapley were chosen committee for the ensuing year. Charles Babbidge is collector.

MAY 26. TOMSON.

Among the Grangers.

This column is devoted to the Grange, especially to the granges of Hancock county. The column is open to all grangers for the discussion of topics of general interest, and for reports of grange meetings. Make letters short and concise. All communications must be signed, but names will not be printed except by permission of the writer. All communications will be subject to approval by the editor, but none will be rejected without good reason.

DATES.

Friday, June 20—Meeting of Hancock Pomona with Penobscot grange.

BAYSIDE, 476, ELLSWORTH.

The regular meeting of Bayside grange was called to order Wednesday evening, May 21, by Worthy Overseer Walter Jordan. The regular business finished, an interesting literary program of readings, remarks and music was presented.

The next regular meeting, May 28, will be observed as memorial meeting. A committee has been appointed to engage speakers. It will be an open session, and all are invited.

There will be a grange supper Wednesday evening, June 5. Members wishing information in regard to the affair may apply to H. W. Estey, chairman of committee.

LA MOINE, 264.

Nineteen were present Tuesday evening, May 20. After business, a Peace day program was presented. "Disarmament," by Whittier, was read by Homer Wilbur, who was master pro tem. Essays were given as follows: "The School Peace League," Eunice Coggins; "The Work of the Red Cross Society," Thaddeus Hodgkins; "Some Who Have Loved Their Fellowmen," S. J. Young; "The Arsenal at Springfield," was read by Shirley Holt, and all joined in singing "America."

MASSAPQUA, 477, SOUTH BLUEHILL.

There were fifty-three in attendance at the meeting of Massapqua grange, May 22, including visitors from Sedgwick, East Bluehill, Halcyon and Greenwood granges. Three were instructed in the third and fourth degrees, and a harvest feast was served. A short program was presented.

GOOD WILL, 376, ANNEHEIST.

Good Will grange held its regular meeting Saturday evening, with only a small attendance. Arno B. Jewett, having resigned as master, it was decided to elect a new master next Saturday evening, when a supper will be served.

FLORAL, 158, NORTH BUCKSPORT.

Floral grange held its regular meeting May 20, with Worthy Master C. H. Lowell in the chair. After business was disposed of recess was declared and all enjoyed a box social, after which games were enjoyed until the tap of the master's gavel reassembled the grange in the fourth degree. It was nearly 10.30 o'clock when the meeting closed, but all felt that a pleasant and profitable evening had been spent.

NICOLIN, 389, NORTH ELLSWORTH.

A meeting of Nicolin grange was held Saturday evening, May 17. One application for membership was received. An Arbor day program was given, many of the members taking part. At the close of the evening a box supper was enjoyed by all, the boxes being prepared by the gentlemen. It was voted to have ladies' night June 7 and children's night June 14.

NARRAMISSIC, 224, ORLAND.

Narramissic grange, notwithstanding the unpleasant condition of roads and weather, held "Peace day" and "Children's day" in one on May 24. The grange was called to order by Worthy Master C. R. Kiple in open session. The lecturer's program consisted of singing, school children; reading of Peace selections, worthy lecturer and Mrs. Gertrude Hutchins; quotations; singing, school children; duet, Miss Jennie Stubbs, Miss L. Gertrude Churchill; singing, the children; singing, "America."

Credit is due Miss Churchill and Miss Mildred Cooke Gross for their instruction of the children, who did their parts so well as to make very evident their careful training.

Refreshments were served and a social hour and games for the young people were enjoyed.

EASTBROOK.

Mrs. Nathan Bunker is ill.

Friends of Mrs. Henry A. French are glad to know she is improving.

Memorial services will be held at the church next Sunday afternoon.

Mrs. Fred DeMeyer, who has been visiting relatives in Bluehill, is home.

Mrs. Elmira Jellison, who is in poor health, has gone to Sullivan for medical treatment.

Miss Clara Wilbur will leave this week for Northeast Harbor, where she will be employed during the summer.

Mrs. Elwyn Wilbur, daughter of Orwell Googin, received the sad news Saturday of her father's death. He was drowned in the Seville river in South America on May 11. The news was a shock to his daughter, who was eagerly looking for him home in a few months for his first visit in nearly fifteen years. She has the sympathy of all.

BAR HARBOR.

James N. Emery, of this town, has been elected superintendent of schools of Dover and Foxcroft at a salary of \$1,200 a year. Mr. Emery was graduated from Bowdoin college in 1905, and after his graduation read law in the office of Deasy & Lynam and was admitted to the bar in April, 1912. He has been a member of the school board of Eden over three years.

For the Weak and Nervous. Tired-out, weak, nervous men and women would feel ambitious, energetic, full of life and always have a good appetite, if they would do the sensible thing for health—take Electric Bitters. Nothing better for the stomach, liver or kidneys. Thousands say they owe their lives to this wonderful home remedy. Mrs. O. R. Raines, of Vernal Center, N. H., says: "I regard Electric Bitters as one of the greatest of gifts. I can never forget what it has done for me." Get a bottle for yourself and see what a difference it will make in your health. Only 50c and \$1.00. Recommended by all druggists.

COUNTY NEWS.

NORTHEAST HARBOR.

V. R. Smith and wife are in Boston.

Dr. R. W. Wakefield, of Bar Harbor, was in town Saturday.

William Jordan has had a telephone installed in his house.

Albert O. Jacobson spent a few days of last week in Mount Desert.

Mrs. Grace Goodwin, of Seal Harbor, visited relatives here last week.

Mrs. Emily Whitmore Mitchell, of Lewiston, is visiting relatives here.

Special memorial services were held at St. Mary's-by-the-Sea Sunday morning.

Miss Mildred Wagsatt, who is teaching at McKinley, spent the week-end at home.

Dr. Robert L. Grindle, of Mt. Desert, attended the teachers' convention here Friday.

Capt. Joseph Whitmore and Herbert Smallidge were in town Friday and Saturday.

Miss Lena Norwood and Miss Helen Mayo, of Southwest Harbor, were in town Friday.

Mrs. Kate Pray and children, of Mt. Desert, were the guests of Mrs. Kate Whitmore Friday.

Miss Eleanor T. Blodgett, of New York, is at her cottage, "Westward Way," for the summer.

Mrs. Susie Smith and children, who have been visiting relatives here, have returned to Steuben.

Quite a number of town people attended the funeral of John W. Somes at Mount Desert last Tuesday.

Ernest Swan is moving his household goods into the house he recently purchased, near the Catholic church.

Carl Hedges and wife arrived from New York Saturday. They will occupy Philip McLean's new cottage this summer.

The baseball games between Northeast Harbor and Seal Harbor, scheduled for Friday and Saturday, were postponed on account of rain.

Asiatic Rebekah lodge will hold an entertainment and dance at the Neighborhood house Thursday evening, with music by Wescott's orchestra.

The seniors of Gilman high school held a dance at the Neighborhood house Thursday evening, with music by Wescott's orchestra. Refreshments were served. Mr. Rev. Robert Codman, bishop of Maine, made his annual visit to St. Mary's-by-the-Sea Sunday evening, and conferred the rite of confirmation upon a class of candidates.

TEACHERS' CONVENTION.

The Mt. Desert Island teachers' convention was held at the Neighborhood house Friday. In spite of the bad storm, it was a success. The program was an exceptional one, some of the best speakers in the State being present, as well as Hon. H. C. Morrison, of New Hampshire, who gave an excellent address in the evening. The program:

Forenoon.
Prayer.....Dr. R. L. Grindle
Remarks.....W. S. Knowlton, Manset
"Measuring Results,"
State Supt. Payson Smith
Afternoon.

Music
Reading.....Miss Andrews
"A New Standard of Reading for Grammar Schools," Miss Maude Andrews, Portland
"Medical Inspection and Hygiene in Schools," Dr. Frank R. Ober, Southwest Harbor
"The High School and Over Age Grammar School Pupils,"
Supt. E. L. Palmer, Bar Harbor
"Discipline in High School,"
Prin. W. E. Stuart, Southwest Harbor
"Opportunities of the Rural Teacher,"
Prof. A. J. Jones, Orono

Evening
Music
Reading.....Miss Andrews
Address.....Hon. H. C. Morrison, State Superintendent of Schools of New Hampshire
Reading.....Miss Andrews
May 26.

MARIAVILLE.

Lulu Bell, of Bangor, is visiting her father, Frank Frost.

Julia Stuart and children, of Gouldsboro, are visiting her mother, Mrs. Addie Carr.

Mrs. Jane Pool, who has been ill several months, is able to sit up a few minutes at a time.

Mrs. Mary Cross, who has been critically ill at the Eastern Maine general hospital at Bangor, after having a large tumor removed, is improving slowly.

MAY 26. F.

LAW

The Aeroplane of Death

"STARVE THE FLY."

Ours is a country home, but we have very few flies. Our method is based upon the principle of "barring and starving." In other words, we keep them out and give them nothing to eat, says a writer in the Woman's Home Companion.

Fighting the fly in the country is exceedingly difficult because of the wide range and the numerous places where the insect can breed. On the farm the most common of these places are the barns and manure piles, pigsties, chicken houses and toilets. We began by making the barn scrupulously clean. This was not a difficult task and no more than should be done on every country place. The "fly part" of the barn is the stables. Using plank floors, cleaning the stalls both morning and evening and sprinkling a little powdered lime about gave the flies no chance. The manure was thrown into a box outside, and this box is on a sled, ready to be hauled away at once and thrown on the garden or fallow land. Powdered lime sprinkled in the box, when empty, keeps this fly proof.

Then came the "barring and starving" process for the house. Both for convenience and comfort we installed a complete plumbing system, with hot and cold water, in the house. In this day of gasoline engines, hydraulic rams and other simple as well as economical methods of installing water systems every farm home should have

REMOVE STABLE SWEEPINGS AT ONCE.

a plant of this sort. This required a sewer system, but the one drain and line of waste pipe also sufficed for the kitchen sink and stationary washtub. The sewer pipe, which was four inch close joint tile, was run down the hill from the house into a drain. No cess-pool or tank was used, but the outlet was converted into a veritable flower garden. The only flies that congregated about this spot are butterflies. To assist in absorbing all waste the outlet is changed from time to time and the former spot covered with earth.

One thing is very essential, however, for a sewerage system of this sort—that is, a large vent pipe, not less than two inches, for the toilet and sinks. We have such a pipe or pipes, connecting them to a final line and butting this into the brick flue of the kitchen. This creates an upward draft, which sucks out and keeps the sewer line and drain clean of all odor and poisonous gases. By sprinkling chloride of lime in and close around the drain now and then we are given no trouble with this part of the system, and it remains continually fly proof.

As a matter of course we have screens at the doors and windows. The back porch, next to the kitchen, which is usually a harbor for flies, we completely screened in. Thus the kitchen door can be opened when the room is hot and filled with the smell of cooking with no fear of the flies warming in. Here, too, we placed the stationary washtub.

Finally, let it be added, that even with all these precautions we are visited by flies. They always come when such things as cabbage, fish and meats are cooked, but most of them get no closer than the screens. A wire screen fly killer is kept handy for the few that chance to get in.

A WARNING.

It is better to screen the cradle and wear a smile than to scoff at the precaution and wear mourning.

HOW TO FIGHT THE FLY IN THIS TOWN

First.—Educational work should be begun at once in schools, women's clubs and other civic organizations, because if you wait until the flies appear in the spring they will be multiplying by the million while you are doing organization work that ought to have been done during the cold weather. This committee, as in former years, will co-operate with local committees, furnishing literature and answering questions as to methods of individual campaigns, etc.

Second.—In your movements for passing of general cleanup and anti-fly ordinances first secure the interest of the state health department. If you find difficulty in doing this by mere force of suggestion, employ other legitimate means of stirring it to action—petitions from local or state organizations, boards of trade, women's clubs, town improvement societies, etc. If the head of the state health service is not cordially co-operating with you he can be shamed into it.

Third.—Employ similar tactics, if necessary, with the health authorities, aldermen and other officials of your city or town.

Fourth.—Get ordinances passed (state if possible, local at any rate) for the screening of foodstuffs, the chemical treatment and removal of manure, etc., but do not think that because you have an ordinance it will enforce itself. Eternal vigilance is the price of freedom from filth and flies. Probably even the most energetic and sympathetic health officer will be unable with the force of inspectors at his command to discover all the violations of the ordinance. You must help him by volunteer inspection and reports. If then he is lukewarm in the prosecution of offenders make his position uncomfortable. If the magistrates refuse to impose fines for proved violations make it uncomfortable for them too. It's all very simple if you are in earnest.

Fifth.—Colorado and Texas have instituted the custom of state wide "cleanup days." Induce the governor of your state by proclamation to set aside a day for such a purpose, and if he cannot be induced to do so—but he probably can if proper representations are made to him—at least get your mayor to proclaim a local "cleanup day."

Sixth.—If you must have "fly swatting" contests to stimulate interest in your local campaign let them be held as early in the spring as possible, while there are comparatively few flies. If you could find and kill all the spring flies, as of course you cannot, there would be none to trouble you in the summer.

Seventh.—Be careful to brush up any flies that may be lying around with their feet up in the air looking as if they were dead; they may be "playing possum." The only safe way is to burn them. Do not throw them out or into the garbage can, as they will become active as soon as the temperature rises.

A fly in the milk may mean a baby in the grave.

JEKYLL AND HYDE

The fly enters your home as a harmless insect. But once inside he becomes transformed into a monster of horrible proportions, carrying disease to the members of your family. One fly carries over 6,000,000 germs about with it.

A screen in time saves many lives.

HOG RAISING.

[Prof. P. A. Campbell, Farmers' week, Orono, 1913.]

The cost of producing the pig depends upon the cost of keeping the sow for the year, also a proportionate part of the boar's cost of maintenance, this of course varying with the number pigs which he is the sire of. The cost of both sow and boar includes feed, labor, and overhead charges.

From this it may be seen that a sow that produces only five pigs in a year brings the cost of the pigs up to about twice what it would be if she produced ten; or three times what they would cost if she produced fifteen. Consequently the necessity of selecting prolific stock, also of handling the sow in such a way that she will produce thrifty pigs and the saving of the pigs after farrowing is apparent.

It is also just as essential that good breeding stock be used in order to produce the right type of pig. It is a well recognized fact by all stockmen that the nearer to the birth period a pound of gain can be made the cheaper will be the cost of that pound of gain. Any pig that is kept merely for fattening purposes should be ready for market by the time it is six to eight months of age. It is very likely that the hog dressing 400 or 500 pounds—varying in age from a year upward—owes the feeder more than the hog will possibly sell for.

The young pig, while still suckling its dam, should learn to eat by having a small trough placed in a run that the pig can easily get to. If skim milk is available the feed may be a mixture of skim milk and middlings. Bran should not be used at any time in swine feeding, except possibly with the brood sow that has a tendency to take on fat. The capacity of the pig's stomach is limited and the hog does not digest crude fibre readily. Although middlings and bran are not materially different in food nutrients the hog gets about twice the results from middlings that it does from bran.

The pig fed supplemental feed in this way scarcely notices the weaning period, and if the sow is suckling a good number of pigs and they have plenty of exercise there will be little or no danger from over feeding, or producing a case of "thumps".

For some time after weaning, a ration of one part middlings to three parts skim milk (by weight) will produce satisfactory growth. If more skim milk is available, it may be used, but care should be exercised not to permit enough milk to be fed to create stoppage, for in such cases too much milk is worse than none.

As the pig develops, corn meal may gradually take the place of the middlings until at four or five months of age the meal has entirely replaced the milk. Many experiments have been conducted to determine whether the corn ground into meal is more efficient than whole corn. Usually the cornmeal has produced the best results. With corn at the price it usually is here in Maine it is safe to assume that it will always pay to grind the corn.

No saving is made by cooking the feed, in fact not quite so good returns have been made. The only exception to this is with potatoes. The hog likes cooked potatoes better and will eat them readily, while he will eat only a limited amount of raw ones.

If there are no dairy by-products available, feeding tankage may be used to take the place of skim milk. One part of tankage to nine or ten parts of meal (by weight) usually gives as good results as the milk. A ration made up of corn alone produces a very fat hog, but as corn is lacking in ash, the bone does not grow fast enough so but what the hog is frequently too heavy for his bones and the common expression is that the hog goes "off its feet".

Barley may be used for fattening, but does not make quite as large gains for the pounds fed as corn, and it is better when fed with other feeds. Rye may be used the same as barley. Pasture alone as a rule does not furnish a satisfactory ration usually supplying little more than a maintenance, but when used with a supplemental grain feed, produces good results and more economical gains than when pasture is not used. One of the most economical pastures is rape—dwarf Essex rape is the variety sown. Clover makes a good pasture, also peas and oats.

Everything considered, the man who desires to grow pork in Maine has equal advantages with feeders in any part of the East. Dairy by-products, pasture, potatoes, barley, corn—all furnish a part of the hog's ration, and when converted into pork provide a manufactured form in which they can be sold with good returns.

Be a Booster.

Do you know there's lots of people
Settin' round in every town,
Growin' like a broody chicken,
Knockin' every good thing down?
Don't you be that kind of cattle,
'Cause they ain't no use on earth,
You just be a booster rooster,
Crow and boost for all you're worth.

If your city needs boostin', boost 'er;
Don't hold back and wait to see
If some other fellow's willin'—
Sail right in, this country's free.
No one's got a mortgage on it,
It's just yours as much as his,
If your town is shy on boosters,
You get in the boostin' biz.

If things just don't seem to suit you,
And the world seems kinder wrong,
What's the matter with a boostin'?
Just to help the thing along?
'Cause if things should stop again?
We'd be in a sorry plight;
You just keep that horn blowin'—
Boost 'er up with all your might.

If you know some feller's fallin' in,
Just forget 'em, 'cause you know
That same feller's got some good points;
Them's the ones you want to show.
'Cast your loaves on the waters,
They'll come back 'a sayin' true,
Mebbe, too, they'll come back 'buttered'
When some feller boosts for you.

—The Roller Monthly.

Keep 'em Going.

"One step won't take you very far,
You've got to keep on walking;
One word won't tell folks what you are,
You've got to keep on talking.
One inch won't make you very tall,
You've got to keep on growing;
One little aid won't do it all,
You've got to keep 'em going."

KITTERY TO CARIBOU.

The farm buildings of V. M. Estes, of Harmony, were burned May 20, with two horses, four cows, two heifers, twenty-five sheep, thirty-three lambs, a hog and some hens.

A gift of \$10,000 is announced from Hon. D. D. Stewart, of St. Albans, to the Good Will Home association, to be added to its permanent endowment fund, and to be known as the Levi Stewart fund.

Edward Blanchard, of Bradley, aged forty, committed suicide Tuesday of last week by drowning. Ill health was the cause. He leaves a widow and a two-year-old daughter.

C. Vey Holman, of Bangor, has been designated by Governor Haines as the official representative of Maine to attend the twelfth international geological congress at Toronto, Canada, during the week from August 7 to Aug. 14, 1913.

Frank L. Snow, a past grand representative to the sovereign grand lodge of Odd Fellows, and ten years ago grand patriarch of the grand encampment, Patriarchs Militant, dropped dead Saturday at his store in Brunswick, aged fifty-five years.

Oliver P. Hix, of Rockland, who had served six terms as common councilman and seven as alderman, dropped dead Saturday, aged eighty-two years. He was a native of South Thomaston, and was in the market business in Rockland about forty years.

Bangor high won the final debate in the University of Maine interscholastic debating league Thursday evening, defeating Bar Harbor high. David Rodick, of Bar Harbor, was awarded the university scholarship as the best debater. The teams competed for a silver cup, which Bangor high has now won twice. Permanent possession of the cup will pass to the school winning it three times.

COUNTY NEWS.

OTTER CREEK.

All are glad to see Mrs. Emma Walls out again after her long illness.

Mrs. Beatrice Small was taken to the Bar Harbor hospital last Friday for treatment.

Fred Bartlett and wife, of Pretty Marsh, are keeping house here, while Mr. Bartlett is at work on the new shore bridge.

This community was greatly saddened by the death May 19 of Mrs. Lucinda Hadley, wife of Elisha Hadley, aged seventy-five years. Mrs. Hadley was a woman of beautiful character, and was loved by all who knew her. She had a host of friends, who will sadly miss her. She leaves a husband, one sister—Mrs. Philena Young, of this place, and one brother—Eldridge Tripp, of Bar Harbor; also several nieces and nephews. Funeral services were held at the church Wednesday afternoon, Rev. A. M. McDonald officiating. The floral tributes were beautiful.

May 26. G.

SURRY.

John Staples recently lost a valuable horse.

Helen Clark is working for Mrs. Rosa Curtis.

Della Blodgett, who has been away the past few months, is home.

Mrs. Mary E. Gray and Ella Jarvis spent several days visiting in North Surry last week.

Mrs. C. E. Billington, who has been visiting Mrs. Grace Barron in Ellsworth, is home.

Albert Withee is working at Bayside. He has moved his family into part of the Newell Osgood house.

Mrs. Lucy Emery, who has been in Massachusetts all winter, is home. All are glad to welcome her.

Charles Coulter has returned to his work in Boston. Capt. Scott Treworgy, who has employment there, returned with him.

May 26. ANON.

ISLESFORD.

Miss Evelyn Moore is employed at Everett L. Spurling's.

Miss Carrie Spurling, of Manset, visited her aunt, Mrs. Margaret Stanley, last week.

Mrs. Collins Morrell, of Pittsfield, arrived Saturday for an extended stay with her sister, Mrs. Harry Phippin.

Rev. Newman Smythe and Miss Mary arrived Saturday for the season. The other members of the family are to come next month.

Dr. V. Y. Bowditch, Miss Yardley, Dr. Harry Bowditch and wife arrived at the Bowditch cottage Saturday. Dr. Harry and wife expect to remain for the summer, but Dr. Vincent and Miss Yardley will remain but a few days.

May 26. S.

SWAN'S ISLAND.

Rev. Harry Barras, of West Stanley, Eng., preached in the Methodist church Sunday.

Capt. H. E. Colomy left Sunday for Clarks Harbor, N. S., for his third trip of lobsters.

Mrs. Sophia Stanley, who has been very ill for some time, died Thursday night. She was in her eighty-seventh year, and had been smart and active until her last illness. She is survived by one aged sister—Mrs. Abbie Holbrook, of Vinland Haven; three sons and two daughters, all of Swan's Island; twenty-nine grandchildren and thirty great-grandchildren. The funeral services were held at the homestead by Rev. Harry Barras.

May 26. S.

EAST LAMOINE.

Capt. G. W. Gault went to Seal Harbor Sunday.

Neil Hodgkins spent Sunday at Bar Harbor.

Dr. T. J. Murphy and wife and John Sullivan and wife, of Bangor, were guests at Mrs. W. F. Deslaires', Sunday.

May 27. N.

Putting Tobacco in Tins is Like "Locking the Stable Door"

—"after the horse is gone." Because when tobacco is chopped into small pieces, much of the flavor evaporates before the tobacco goes into the tin.

There is only one way to keep all the natural fragrance and original flavor in tobacco until it reaches your pipe—and that is the hard-pressed Sickle plug. And the natural leaf wrapper is a better protector than any tin, tinfoil or waxed paper.

You always get a fragrant, slow-burning, cool smoke from Sickle, because you slice it off the plug as you use it. You get more tobacco, because there's no package to pay for. There's no tobacco wasted—and the last pipeful is as fresh and sweet as the first. Smoke Sickle today—all good dealers sell it.

ELLSWORTH FALLS, ME. P. O. Box 7.

FOREST FIRES.

Orders to Wardens Issued by Fire Commissioner.

Blaine S. Viles, of Augusta, State land agent and forest commissioner, is sending out a letter containing instructions to chief fire wardens. The letter is as follows:

We are at the beginning of a season when fires will cause more or less destruction to the forests of the State. The extent of this loss depends upon weather conditions and also upon the effectiveness of the forest-fire protective system. This system has been in force several years. Each season sees improvements, and we trust that the coming year will see further development.

The fire chief wardens have been selected and commissioned after conferences with those interested in timberland protection throughout the State. You are the men who have the confidence of those who are vitally interested. Let no man abuse this trust.

LOOKOUT STATIONS.
We have invited suggestions in a previous letter as to the advisability of constructing more stations. Several chief wardens have advised building new stations. This department has investigated the cases fully and as a result, six or more stations will be built. We still believe that stations can be built to advantage in other sections. Because of the deficit in the funds of this department, we have been obliged to postpone the construction of stations where the cost was unusually large.

Each station is supposed to be equipped with a good map of the locality. Upon this map should be a circle with the station as a center, and with a radius of not over ten inches; this circle should be graduated with the degree of the compass. There should be a board upon which the map can be mounted, and a support for the board so that it may be held in convenient place; a tripod is usually used for this; there should be an alidade for determining the direction of a fire, and also a set of good observation glasses. A good scale for the map is one inch to two miles. If the station or stations in your district are not equipped as above, please notify this department at once.

WATCHMEN.
We have had many applications for positions and of course we could fill only a small percent. Persons recommended by the chief wardens or others interested in the system have been selected. The tendency with any man, if left alone, is to become negligent, and chief wardens are directed to keep in as close touch with the lookout men as possible. Take an inventory of the property turned over to the watchman and hold him responsible for the same. Do not allow him to leave his station without your knowledge. Make as frequent inspections of the stations as possible.

See that he has a supply of tools, instruments, etc., and knows how to use them. When the condition of the woods allows, have the man engaged in making permanent improvements on the telephone line, station, camp, trails, etc. The stations are permanent and should be improved each year.

Have him communicate with some one by telephone at least twice each day, that you may be sure the man is alive and that the telephone is working. A station without telephonic communication is useless. Instruct the man in case he is unable to get telephonic communication to start out on the line and find the trouble. If he is unable to repair the same, have him keep on traveling until he comes to some place where he can get into telephonic communication with you and receive instructions.

Have him make out his reports fully and mail one to you and one to this office at the close of each week if the condition of the woods will allow him to do so. If it is dangerous to leave the station, instruct him to hold the reports until such time as it is suitable to leave and mail them.

Have the watchman have a good supply of provisions on hand to carry him over an extended period of dry weather when he cannot leave the station. Instruct him, in so far as you can, in the care of the telephone instruments and line. It is always well to have extra batteries at the station, a pair of climbing irons if the line is high above the ground, and extra wire, insulators, etc.

Supply him with a few tools for fighting fire in case he finds a small blaze that he can reach and extinguish. Instruct him as to the telephone connections in the locality, whom to notify in case of fire, etc.

The lookout watchmen are employees of the federal government who work under the direction of the State forest fire officers. The forest commissioner is an officer of the United States forest service.

The federal government pays the watchmen once a month, and in order that they may receive prompt payment, their expense accounts must be presented to the forest commissioner by the 25th of the month. He then makes up the payroll and forwards it to Washington. The expense accounts of each lookout watchman must be approved by the chief warden of the district, and may be made up for the full month and forwarded to reach the forest commissioner by the 25th. In case the man does not work for all or part of the month after the 25th, the chief warden should wire the forest commissioner, who may change the account accordingly. This arrangement is followed simply to insure prompt payment of the men. If the account comes to the forest commissioner late, payment will be delayed one month.

The system of forest fire lookout stations which has started in Maine has extended over the country. It seems to be an effective way of controlling forest fires by discovering them at their start and getting men to the place before they have become unmanageable. The system should be improved and extended and all measures taken to make each station effective.

FIRE TOOLS ON HAND.
An adequate supply of tools for fighting fire should be kept in convenient places in each chief fire warden's district. The tools should be well housed, and collected after use, and they should be used for no other purpose than that of fire-fighting. If your district is not properly supplied, please notify this department at once.

A limited number of patrolmen are undoubtedly necessary in each district when the woods are in a dangerous condition. The

men who are appointed on recommendation of the chief wardens must be capable woodsmen, and men who can be of practical use. They should wear their badges so that those who travel the woods and meet them will know that the forests are being patrolled and that infringement of the fire laws will be prosecuted.

They must keep accurate reports upon the blanks furnished them and make prompt return of the same to this department and the chief warden of the district. Do not overdo this matter of patrols, but when it is necessary put on some good men who will do some good work.

It is important that each section be well posted with fire notices that those who travel in the forests may read and remember. This work can be done by patrolmen. Do not allow a deputy-warden to run up an uncalled bill in this work.

This department is fully aware that the men on the ground are better acquainted with conditions than the forest commissioner can possibly be. He will rely on the chief wardens to set the lookout men and patrolmen at work, when, in his judgment, it is necessary. He will hold each chief warden responsible for the protection in his district. No man should be put on patrol or on lookout stations without first being commissioned by this office, and notice must be given the office when men are placed at work and taken off.

REPORT FIRES PROMPTLY.
All fires must be reported promptly and the office informed of conditions in each district at least once each week. If fire occurs, get men there as quickly as possible and use such measures as seem practical to you on the ground.

Be sure that the expense accounts of yourself and those working under your direction are rendered promptly at the close of each month. All expense accounts of employees in your district must be approved by you before they will be paid.

Several amendments to the forest district law were added and other acts passed by the last legislature. This legislation will go into effect at midnight, July 11, and a circular letter will be issued to you before that date that you may have knowledge of those changes.

WEEDS AND HOW TO CONTROL THEM

[Prof. W. L. Slate, Jr., Farmers' Week, Orono, 1913.]

It has been said that a weed is a plant out of place. This is undoubtedly true from certain standpoints, but for the farmer, the weed is more—it is a pest, an enemy, a source of financial loss. Recent experimentation even suggests that it is weeds, not the lack of mulch, that lowers our corn crop. However that may be, we do know that they reduce our crop yields and values.

Weeds injure crops, by using plant food, by using water needed for the crop, by crowding out economic plants. Inconvenience in harvesting, reducing value of crop, as weeds in hay, and harboring of fungus diseases, are some of the other ways in which weeds injure crops.

It often occurs that a new weed appears on a farm, takes possession of whole fields, and one is at a loss to know how it came there. The most frequent sources are our waste pastures, fence rows, roadsides and other waste places. Weeds are allowed to run riot here and are spread by the wind, by the wash from higher lands, by animals and birds. Some states have laws that make it a misdemeanor to let noxious weeds grow. Grass and clover seed bring more weeds to the farmer than he realizes. With this in mind, we have passed pure-seed laws, so that a purchaser may know when he is getting poor seed or good.

In combating weeds, tillage is necessary. Better have less area and keep it clean. Modern tools are a great aid in this fight. Short rotations are necessary for many weeds that tend to infest our meadows. Mowing and burning often are worth while, but should be done before the weeds form seed.

Spraying with herbicides is receiving considerable attention. Copper sulfate and iron sulfate are being used with success, but care must be taken that the work is done thoroughly and under proper conditions to obtain good results. Twelve pounds of copper sulfate (blue vitriol) in fifty-two gallons of water is effective on common mustard, prickly lettuce, and goosefoot. Spray when leaves are dry. Iron sulfate, 100 pounds to a barrel of water, has been found most effective on mustard. Spray when the plants are six to twelve inches high and the leaves are dry. It may be necessary to repeat the spraying. The cost will be about \$1.35 per acre.

Quack grass (witch or scutch grass)—Tillage is the best means to clean up a field. The root stalks are persistent, and must be turned up to sun or frost until killed out. For a thorough discussion, see Farmers' bulletin No. 464.

Sorrel—There is a common idea that sorrel is an indication of sour land. This is not true, but may appear so from the fact that use of lime is followed by the disappearance of sorrel. The fact is that the lime encourages clover growth, and this keeps the sorrel from taking possession of the field. By all means see that clover seed is free from sorrel, since this is the chief source of the weed.

Mustards—Tillage, clean seed and sprays are the means at hand for combating mustard. Grain fields may be sprayed with little or no injury to the crop, and the expense is not great enough to be a factor.

Hawkweed—Since the root stalks are fairly close to the surface, this weed may be handled by plowing shallow and surface working, much as for quack grass. A short rotation is also essential. On fields where this is impracticable, salt may be used, about twenty pounds to the square rod.

Daisy or white weed—A short rotation again applies here. To prevent spreading, the grass should be cut early. The weed seeds are not ripe at that time, and later, plowing will destroy the plants.

When a man loses his health, he begins to take care of it.

Hot milk added to potatoes when mashing will keep them from being soggy.

Wrap cheese in a cloth soaked in vinegar. This will keep the cheese moist and prevent it from molding.

Height of Fork of Trees.

Some people, through careless observation, believe that the fork of a forest tree will gradually grow higher from the ground. If they would investigate, it would be found that the forks and "heads" of fruit trees are at exactly the same point where they were when first noted.

The state forester, in inspecting locust and catalpa groves throughout the state says the *Indiana Farmer*, has found owners who have not removed one part of the fork of those trees that have formed forks below the fence-post length, believing that in years the fork would grow up and a fence-post could be cut below the fork. This erroneous belief is the cause of much of the delay and neglect of pruning in early life of street and roadside trees.

It should be remembered that the base of a fork or a branch of a tree will always remain at the same distance above the ground. The side branches of some trees, such as the elm, usually continue to grow upward, while those of other trees, such as the maples, incline upwards when young, and as the tree grows older the weight of the branches gradually brings them to the horizontal. The latter often makes the removal of large branches necessary, which not only spoils the symmetry of the tree, but usually starts decay, which soon kills the tree.

No street or roadside tree should be permitted to form a fork below ten feet, and all the branches to the same height should be removed so that they will shade the adjacent crop less. If this is done the tree in time will grow a saw-log below the branches. Every farmer who has a tree growing along his fence should see to it that it is properly pruned before spring-time comes.

Years of Suffering

Catarrh and Blood Disease—Doctors Failed to Cure.

Miss Mabel F. Dawkins, 1214 Lafayette St., Fort Wayne, Ind., writes: "For three years I was troubled with catarrh and blood disease. I tried several doctors and a dozen different remedies, but none of them did me any good. A friend told me of Hood's Sarsaparilla. I took two bottles of this medicine and was as well and strong as ever. I feel like a different person and recommend Hood's to any one suffering from catarrh."

Get it today in usual liquid form or chocolate tablets called Sarsatabs.

COUNTY NEWS.

FRANKLIN.

Mrs. Percy Hanscom has returned to Glen, N. H.

Frank E. Blaisdell was in Bangor on business last week.

William P. Goodwin and wife, of West Sullivan, were in town Monday.

The Star Comedy Co. repeated the "Elopement of Ellen", Monday evening.

The memorial sermon by Rev. W. H. Dunham Sunday afternoon was listened to by a large audience. It received many favorable comments.

Oran L. Fernald died at his home Monday afternoon. He was a citizen who had the high regard of his townsmen.

The funeral of Lester, son of Loren and Jennie Wentworth, was held at the Baptist church Sunday afternoon, Rev. G. Mayo officiating.

There was a pretty home wedding at the residence of Mr. and Mrs. Lorenzo Bragdon Wednesday evening, when their eldest daughter, Della, was married to Harris W. Bunker. They were attended by Hazel, sister of the bride, and James Bunker, cousin of the groom. The color scheme for room decorations was green and white, the bride standing in an arch of green with overhanging bell of white. Miss Marcia Bragdon played the wedding march as the couple advanced. Rev. Gideon Mayo performed the single-ring wedding ceremony. The bride was gowned in shimmering messaline with lace and crystal trimmings. Miss Hazel wore blue silk. The wedding pair are held in high esteem by a large circle of friends, who wish them many years of happiness and prosperity. Miss Julia Macomber was usher. There was an attractive display of gifts. Misses Marjorie and Ellen Bragdon, cousins of the bride, served delicious refreshments before the departure of the newly-wedded couple on the late train. They will visit Portland and other points on their trip.

May 26. B.

WEST SULLIVAN.

Edward Johnson and wife, of East Sullivan, were calling on friends here Sunday.

The end of the stone-cutters' strike is not in sight, and everything is at a standstill.

The three-master Lydia Middleton is loading paving for Dunbar Bros., for New York.

Perley Bailey has gone to Bar Harbor, where he expects to find employment for the summer.

May 26. B.

William Booth, of New York, and George Chillis, paving inspector, were in town Thursday.

Miss Doris Hooper is employed in the office of the Eastern Steamship Co. in Bar Harbor as stenographer.

Dr. H. A. Holt, who has been confined to the house, is out, and his friends are pleased to meet him again.

E. W. Ash, of Washington, D. C., is calling on friends here after an absence of a year. He is on his way to Bar Harbor, where he has employment with Dr. Cleaves.

For observance of Memorial day next Friday, the comrades of D. L. Wear post will meet at the hall at Prospect Harbor at 9 a. m. At 9:30 the post will form in line, escorted by the Franklin Granite band, and K. of P., Redmen, W. R. C. and school children and will march to the cemetery, where services will be held. The post will return to the hall, where dinner will be served by the ladies of the Methodist church. At 2 p. m. the memorial services will be conducted. Rev. Edward S. Drew, of Winter Harbor, will deliver the address. All soldiers and sailors are invited.

May 26. DIRIGO.

NORTH LAMONIE.

Roy Smith, who is employed at Franklin, visited his home here Tuesday and Wednesday.

Margaret Young will go to East Lamoine this week to be employed with Mrs. Nathan King for several days.

Invitations have been received to the wedding of Harvard Wilson Kittredge, formerly of this town, and Armetta Maude Carter, of Reading, Mass., on June 7.

Redford Watson, who recently died at his home in Hyde Park, Mass., and whose body was brought here for interment, was a native of Lamoine, being born here forty-four years ago. When an infant, his limbs were not strong, and when he was a year old he had an illness that left him in such a feeble condition that he was six years of age before he could walk. In this weak condition he was a good subject for rheumatism, and his hands were badly drawn, and were a handicap all his life. Still he bravely persevered, and became a sign painter, and finally took upon himself the responsibility of husband and father.

Beside the wife and one son—Lawrence, he leaves a mother—Mrs. Sarah Hamor, and one brother—George, both of Hyde Park. Interment was in the family lot at Forest Hill cemetery.

SOUTH HANCOCK.

R. C. Hagerthy has had twin calves added to his herd.

Francis Dunham, of East Orland, is employed at R. C. Hagerthy's.

C. H. Wooster, of Ellsworth, spent Sunday with his brother, E. J. Wooster.

S. E. Gould, who has been much improved, had a relapse last evening, and is again quite ill.

Mrs. S. H. Mitchell, who was called to Campobello, N. B., by the serious illness of her father, has returned home.

Mrs. Nettie Higgins, who spent the winter with Mr. R. W. Grant, has gone to Franklin and Lubec to visit relatives before going to Aroostook.

E. J. Wooster, who has been in a hospital at South Portland for treatment, returned to the home of his sister, Mrs. Martha Walker, in very poor health.

May 23. W.

LAMOINE.

Mrs. Samuel Davis, who has been seriously ill, is improving.

Neil Leach, wife and son Lawrence are guests of James Covey and wife.

It is hoped that many will join the procession and participate in the Memorial day exercises at the cemetery Friday. A meeting of the Forest Hill Cemetery corporation will be held at the church in the forenoon immediately following the exercises in the cemetery.

Thursday a party of men met at the grange store and under the able direction of Capt. Fred Hodgkins, the store was transformed into a dining-room and kitchen. The counters were removed, floors scrubbed and the tables and fixtures from the third floor were set up so that a most convenient dining-room and commodious kitchen were arranged. The ladies will soon meet to clean the rooms more thoroughly.

May 26. R. H.

NORTH SULLIVAN.

George S. Hooper is out, after a severe attack of grip.

Mrs. T. H. Peters is home from Boston for the summer.

The strike of stone-cutters continues, with no prospects of a settlement.

Miss M. E. Moon is home from a two-weeks' visit with friends at West Gouldsboro.

Leonard Grant, of Mt. Desert Ferry, is visiting his niece, Mrs. Bridgman Gordon. Mr. Grant has been very ill, and his friends are pleased to know that he is recovering.

Friends here of Frank G. Robinson, of Lynn, Mass., will be interested to know that he has had a relapse of typhoid fever at Margaret Pillsbury hospital at Concord, N. H., whither he had gone to recuperate. He is now out of danger, however, and once more on the road to recovery.

May 26. M.

SEDGWICK.

Charles Closson has returned from Benton Falls.

Maynard Grant is having some repairs made on his cottage at Carter's point.

Mrs. Eva Weed has moved her household goods into Mrs. E. F. Staples' house.

The young ladies who are ill of typhoid fever are getting on finely. The disease is believed to have been contracted from eating sandwiches made from canned chicken.

Mrs. J. E. Wilson, who has spent the winter in Waterloo, Iowa, with her daughter, Mrs. Friend, returned to her home here Thursday. Her daughter Marion, who teaches in the Bethel bible school at Spencer, Mass., joined her here Saturday.

May 26. H.

MARLBORO.

Rev. A. W. Lorimer expects to have a chimney and fireplace built in his cottage this week.

Walter Wagner and wife, of Northeast Harbor, called on friends here last Wednesday.

Rev. A. B. Lorimer and wife, of Lynn, Mass., came Thursday for a week. Mr. Lorimer has Daniel, Peter, Joseph and George McIntyre working on his cottage, which he is enlarging and repairing.

Dr. Howes, wife and daughter Marion came from Bangor Saturday, returning Sunday. He has engaged Homer Wilbur to paint his motor-boat and get it in order before they come to their cottage for the summer. Adelbert Hodgkins will build him a tender for his motor-boat.

COUNTY NEWS.

MT. DESERT.

A daughter was born to Mr. and Mrs. Forrest Dickey May 22.

Mrs. Ruth Frazier, of Northeast Harbor, is visiting her sister, Mrs. Mary A. Leland.

Mrs. Helen Richardson and daughter Kathleen are visiting in Bangor for a few weeks.

James N. Berry, wife and daughter, of Everett, Mass., were guests of J. N. Walker and family over Sunday.

Mrs. Mary Ober, of Hardwick, Vt., was called home last week by the illness and death of her father, Lewis Somes.

Wednesday evening the ladies of this place and Beech Hill met at the home of J. N. Walker and had a shower in honor of his daughter Dorothea.

Mrs. Edith Hyson, of Cambridge, Mass., who was called here by the sudden death of her uncle, J. W. Somes, left Friday for her home, accompanied by Miss Mildred Knox, who will remain for a few weeks visiting Miss Hyson and friends.

Saturday at noon, at the home of J. N. Walker, the marriage of his daughter Dorothea, and Bernard Berry, of Everett, Mass., took place. Only immediate relatives were present. The bride and groom left for two weeks at "Uncle Tom's Cabin", after which they will go to Everett, where a home awaits them. They have the good wishes of their friends here.

Sunday, May 25, was Memorial Sunday. In the morning Rev. J. N. Walker preached a helpful sermon. In the afternoon the children of the Junior Endeavor held exercises, after which they formed in line, marched to the cemetery and laid wreaths on the soldiers' graves, many of the older ones going with them. In the evening there were short addresses by Deacon James N. Berry, of Everett, Mass., Dr. R. L. Grindle and the pastor.

Obituary.

Death again visited this village Monday, May 19, and called one of our aged and respected citizens, Lewis Somes, aged eighty-one years. He had been in poor health over a year. He was twice married, his first wife being Miss Emma Newman. Three children from this union survive him—Mrs. Carrie Fernald, of this place; Mrs. Mary Ober, of Hardwick, Vt., and Arthur, of Southwest Harbor. His second wife was Mrs. Emma Somes, of this place, who survives him. The funeral was held at the home Thursday afternoon, Rev. J. N. Walker officiating.

May 26. H. L. B.

WINTER HARBOR.

Dr. G. A. Phillips of Sullivan spent last week in town.

Miss Harriet Smallidge had her throat operated on last week.

Mr. and Mrs. Thomas, of Eden, are guests of their daughter, Mrs. C. S. Higgins.

Capt. A. J. Guptill left Wednesday for Rockland, where he will have command of the tug Cumberland.

Capt. L. E. Foss and wife, of Rockland, were in town last week to attend the funeral of Capt. I. B. Foss.

Miss Croak, the intermediate teacher, spent the week-end at Prospect Harbor, the guest of Miss Alta Cole.

Mrs. Alvah Mayo is home from Lake View, where she spent several weeks with her husband, who has employment there.

Mrs. C. C. Hatchings, who has been here several weeks caring for her father, Capt. I. B. Foss, during his illness, has, since his death, returned to her home at Prospect Harbor.

The funeral of Capt. Ira B. Foss was held at the Baptist church May 13. Capt. Foss was a genial, kind-hearted citizen, one who will be much missed. During his last illness he was tenderly cared for by his two daughters, assisted by the masonic fraternity, of which he was a loyal member. He leaves two daughters and a son; the latter was unable to attend the funeral.

May 24. S.

HULL'S COVE.

Mrs. Jessie Higgins is in Boston for a week.

Mrs. Frances Brewer was ill a few days last week.

Mrs. Ida Rich, of West Eden, visited friends here last week.

Rev. Oliver Dow Smith, of Ashland, visited here last week.

Mr. and Mrs. Cousins, of Bluehill, visited at Serenus Higgins' last week.

Mrs. Nellie Nason and little daughter, of Bangor, visited relatives here last week.

Miss Marion Stanley, of Bar Harbor, spent Saturday and Sunday with friends here.

Rev. H. B. Smith spent a few days last week in Portland, attending the convention.

John Kilbride and wife and a stableman arrived Thursday with Mrs. Herbert Parsons' horses. Mrs. Parsons will arrive this week.

The graduating class of the grammar school gave an ice-cream social in the Neighborhood house Wednesday evening. The proceeds, about \$13, will be used to help defray the expenses of graduation.

May 26. ANNE.

PROSPECT HARBOR.

Ralph Newman has a new automobile.

Mrs. Irving S. Ray was a guest of Mrs. Harvey Ray, of Corea, a few days last week.

Miss Alice M. Cole arrived the last of the week, after spending the winter in Waterville.

Mrs. Ella Campbell, who has been at I. S. Whitaker's six weeks, returned to her home in Gouldsboro Sunday.

Mrs. Emma L. Stanley has enlarged and

Constitution Cured.

Dr. King's New Life Pills will relieve constipation promptly and get your bowels in healthy condition again. STATE OF MAINE.
COUNTY OF HANCOCK, ss.
Ellsworth, Me., May 8, 1913.

TAKEN this 8th day of May on execution dated April 24, 1913, issued on a judgment rendered by the supreme judicial court of the county of Cumberland in favor of the gun and held on the first Tuesday of April, 1913, to wit, on the 14th day of April, 1913, in favor of Megawigicott National bank, a national banking association and corporation organized and existing by virtue of the laws of the United States of America, located at Camden in our county of Knox, against Andrew S. Grindle and Edmund L. Grindle of Hancock, for three hundred twenty-five dollars and fifty-two cents (\$325.52), debt or damage and eighteen dollars and twenty-seven cents (\$18.27) interest thereon, at ten o'clock in the forenoon, the following described real estate and public auction at the jail office in the city of Ellsworth to the highest bidder on the 10th day of June, 1913, at ten o'clock in the forenoon, the following described real estate and all the right, title and interest which the said Andrew S. Grindle has and had in and to the same on the 1st day of April, 1912 at eight o'clock in the forenoon, the time when the same was attached on the writ in the same suit, to wit:

First lot—A certain lot or parcel of land in the village of Sedgewick situated on the road leading from the E. of Stanley to Benjamin river

bridge, bounded as follows; to wit: Beginning at the southeast corner of lot formerly owned by Daniel Faulkner; thence easterly eight rods on line of said Currier's lot to stake and stones; thence southeasterly parallel with said road about three and one half rods to stake and stones; thence easterly eight rods to a cedar stake; thence north westerly four rods on line of above mentioned road to first bounds, with all buildings thereon.

Second lot—A certain lot or parcel of land described as follows, viz: Beginning at the southeast corner of lot formerly owned by the late B. W. Hinckley; thence westerly by land of said westerly Hinckley to land of John R. Grindle; thence southerly by said Grindle to the line of said road; thence easterly by said Soper land to the road leading by Samuel Billings's house; thence on the line of said lot to the first mentioned corner; thence north about seven or less rods with the buildings thereon.

Third lot—A certain lot or parcel of land described as follows; to wit: It being a part of the meadow of which Daniel Faulkner died seized and is bounded southerly by the line of said road, and easterly by the line of land formerly owned by J. F. Norton, de

ceased, and easterly by land formerly owned by Wm. Hinckley and said mill stream. Containing one acre and more or less. The same premises conveyed to Augustus N. Osgood by John S. Tracy by deed dated June 28, 1848, and recorded in Hancock ss., Register of Deeds, Book 248, Page 357.

Fourth lot.—A certain lot or parcel of land situated in said Bluehill and bounded and described as follows: to wit: southerly by the highway leading from the Norton house by the mill, now owned by P. J. Goto and known as Mill street; easterly by road No. 1, and easterly by the mill stream; northerly and the Osgood Grist mill and westerly and northerly by the mill stream.

Fifth lot.—A certain lot or parcel of land lying in Bluehill and bounded as follows: to wit: Northerly by land of Naham H. Ingalls; easterly by land of Bushrod W. Hinckley; southerly by the mill stream; and westerly by land of Daniel Treworgy, containing eight acres more or less. FOREST O. SILSBY, Sheriff.

NOTICE OF FORECLOSURE.

WHEREAS, Ivory F. Butler, of Franklin, Hancock county, Maine, by his mortgaged date dated October 29, 1904, recorded

Whereas, the said mortgage was assigned to Frank E. Blaisdel, administrator of the said estate of John F. Butler, deceased, to John F. Phenix, son of said Franklin, certain real estate being described as follows in said mortgage:

To wit: A lot of land, bounded and contained as follows: Beginning at a stake and stone on the northerly side of the late Emerson Uran and the Ship Yards Point lot (so-called) strikes said bay; thence north thirty degrees east by the shore of the bay fifteen rods; thence north thirty degrees east by the shore of the bay fifteen rods to a stake and stones; thence north thirty degrees east seventeen rods to a stake and stones; thence north thirty degrees east by the shore of the bay six rods to a cedar fence on the line of said Ship Yards Point lot; thence south eight degrees west following the line of said cedar fence to a stake and stones; thence south eight degrees west following the place of beginning, containing one and one-half acres or more or less.

Being the same premises conveyed to said Ivory F. Butler by deed from said John F. Butler et al. to said Ivory F. Butler, dated August 4, d. 1904, and recorded in the registry of deeds for Hancock county, Maine, and

WHEREAS, Frank E. Rea, of Castine, Hancock county, Maine, by his mortgage dated July 17, a. d. 1906, and recorded in Hancock county, Maine, in book 432, page 159, conveyed to Alvarado Gray of Brooksville, Hancock county, Maine, the following described real estate situated in Castine, to-wit: Book 432, page 159, St. midway between the house of A. J. Wardwell and the house herein conveyed; then

N. E. about sixty-four feet to land of M. Moon lot about one hundred and twenty feet to land of Frank Hooper; thence S. W. sixty-four feet to four inches to S. corner of said Hooper's land; thence on said Hooper's land N. W. forty feet to the E. corner of said Hooper's land; thence on W. Hooper's land S. W. six feet to stake and stones; thence S. E. parallel W. said Moon line fifty-nine feet to the driveway; thence S. W. parallel W. Hooper's line easterly on a line with the W. corner of house herein conveyed to a point midway between same and Wardwell house; thence S. E. to first mentioned bound. And whereas the corner of said Hooper's land is not shown on the map, therefore, by reason of the breach of the condition thereof I claim a foreclosure of said mortgage.

Dated May 10, a. d. 1913.

by W. F. Jude, his attorney

STATE OF MAINE.

HANCOCK SS.—At a probate court held Ellsworth, in and for said county of Hancock on the 43th day of March, in the year of our Lord one thousand nine hundred and thirteen.

A CERTAIN instrument purporting to be a copy of the last will and testament of **MARY C. KAIGEN**, late of the city and county of PHILADELPHIA, and state of Pennsylvania, deceased, and of the probate thereof in said state of Pennsylvania, duly authenticated, having been presented to the judge of probate for our said county of Hancock for the purpose of being allowed and recorded in the probate court of our said county of Hancock.

Orders. That notice thereof be given all persons interested therein, by publishing a copy of this order three weeks successively in the Ellsworth American, a newspaper printed at Ellsworth, in said county of Hancock, prior to the third day of June a. d. 1913, that they may appear at a probate court then to be held in said county of Hancock, at ten o'clock in the forenoon, and show cause, if any they have against the same.

JEROME H. KNOWLES, Judge of Probate.
A true copy of the original order.

Attest:—T. F. MARONEY, Register.

THE subscribers residing out of the State of Maine, to wit, in Philadelphia, in the state of Pennsylvania, hereby give notice that they have been duly appointed executors

RICHARD A. F. PENROSE, late of PHILADELPHIA, in the county of Philadelphia, state of Pennsylvania, deceased, and his bonds as the law directs. Said subscriber not being residents of the state of Maine, have appointed **Harry L. Granger**, of Ellsworth, in the county of Hancock, as the agent and attorney, for the purposes specified in sec. 43, chap. 66 of the revised statutes of Maine. All persons having demands against the estate of said deceased, are hereby notified to present the same for settlement, and all indebted thereto are requested to make payment immediately.

**ROBERT PENROSE,
CHARLES B. PENROSE,

Comparative Digestibility of Food

Made with different Baking Powders

From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with
Royal Cream of Tartar Powder:

100 Per Cent. Digested

Bread made with
phosphate powder:

68 1/4 Per Cent. Digested

Bread made with
alum powder:

67 3/4 Per Cent. Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.

CHAMPION WEIR BUILDER.

Capt. William I. Mayo, of Castine,
Awarded that Title.

(From the *Levee Journal*.)

"Yes, that was some spill!" to use in weir building—ten to twelve inches at the butt and twenty-five foot long—but 'twas as hard a place as ever I built a weir."

So spoke Capt. William I. Mayo, of Castine, who has built more fish weirs than any other man on the Atlantic coast, if not in the world, in telling about a weir which he drove on the shore of Baker's island, off Mt. Desert, last spring. In all probability there are very few weirs on this coast which, for solidity of construction, compare with it. The captain knows of none of the same construction, in which such heavy spilling is used.

But when he went out to Baker's, which is one of the most unprotected places on the Maine coast line, he knew with what he must contend. Fourteen years ago he put a weir in at that point. At that time he learned the force with which the sea will drive down upon the island, and the velocity of the wind. With this experience he knew the new weir must be substantial. He made it so.

At low water there is only about seven feet of water; that point, and with the right sort of breeze prevailing that seven feet kicks up nasty. Whatever is intended to withstand its fury must be built properly. The same is true of the conditions at high water.

The bottom, at that point, is of blue clay, and into this the captain drove his twenty-five foot piles, measuring ten and twelve inches in diameter at the butt, to a depth of seven to nine feet. To do this it was necessary that a steam pile driver be used. The machine which he used for this work was equipped with a 1,500 pound hammer, having a drop of five feet.

It is this hope and expectation that the weir will last for several years, but knowing Baker island conditions as he does, he says it wouldn't surprise him a lot to see any big storm sweep it out of existence.

Captain Mayo was early in the fishery industry. He was born at Southwest Harbor on the island of Mt. Desert, and at the age of seventeen was a full-fledged fisherman, having as a boy become familiar with all the quirks of the business. He went to the Grand Banks in the fisherman, which then sailed from many ports on the Maine coast, instead of but one, Bucksport, as at present. He went with the men from Gloucester and became known as one of the best men who ever stepped over the side of a fishing schooner.

At the Grand Banks he was never a shirker and when afterwards he sought a place on board of one of the Georges banks fishermen it was ready for him.

In this way he became thoroughly acquainted with the salt fish business, as well as that of the fresh fishermen, for that is what the Georges banks fishermen are after—fresh fish for the market.

One of the best trips which the captain ever made, according to his tell, was when he sailed out of Gloucester in the fishing schooner Mary E. Hardy, Capt. Charles Hardy, master. She carried a crew of eighteen men and an engineer, and at the end of thirteen days had earned \$7,800, which gave the men \$186.12 each for the trip.

"That was fishin'," remarked the captain in speaking of it, and then he added, "but we struck the mackerel good that time!"

It was in the year 1881 that Captain Mayo went to Deer Isle and built a fish weir on what is known as White island bar. That was the first weir he ever constructed. Before that he had helped in putting up the weirs, but never had taken charge of the work. Since then he has been very constantly at it, although most every year he finds the old love of schooner fishing calling so strong that he needs most journey to Gloucester and get aboard a Georges bank craft and make a trip. It is needless to say that he is always welcome, for they know him in Gloucester.

It would be impossible to state the number of weirs he has erected, both for himself and for others, for most of the time he finds it necessary to hire men to tend his own weirs, while he is away making fish traps for others. The number will total hundreds, for it covers a period of thirty-one years, not one of which has passed without putting up a number of these contrivances with which to catch fish. Some years they have numbered many more than a score, others the total has dropped to about a dozen, though it has rarely been less than that.

In that time he has caught a large number of fish in his many weirs and made a lot of money. One of the best weirs which he has ever owned, from an earning standpoint, was one of the first which he built and which is still in operation. It is located at Cranberry Isles, and is known as the Mayo weir.

It was this weir which gave him the largest catch, in point of value, which he ever made in a single tide. That weir full of fish stocked him \$603. In sixty days, the same year, that weir stocked him \$6,000.

During his entire career as a weir fisherman, Captain Mayo has never operated a weir outside the State of Maine. A few years ago he thought he would fish elsewhere for a time and went to Florida for that purpose. When he got there he found the laws of the state were against him. In order to fish on that coast the laws of Florida required that he should become a citizen of the state. There was, of course, a reason for this. It was that without such a restriction, the Cuban fishermen would flock to the coast, catch the fish, carry them to Cuba, and Florida would lose both the fish and the money.

The merchants he met were anxious that he should remain in the state and fish, and told him that they would see to it that he became a citizen at once. After thinking the situation over carefully, the captain decided that Maine fishing was good enough for him, and came back to his home state.

Captain Mayo is not one of those who believe that the herring have been ex-

terminated by the hard fishing. It is his idea that they have just wandered away to some other part of the sea or coast and have not been located, and in support of this, calls attention to the fact, well-known to students of the fisheries, that the herring disappeared from the Norwegian coast at one time for a period of forty years, but eventually returned in as large numbers as ever. He thinks this is what will occur to the herring of the Maine coast.

"There are plenty of herring," says he, "but they seek different haunts for food, just as the deer up north in the big woods shift around. One year you find deer very plentiful in one section. Perhaps they stay there for a couple or three years, but then you go there some fall and can scarcely find an animal. They are not exterminated. Simply, they have gone somewhere else. This is proven by the fact that that year you hear deer reported as abundant in a part of the State where there has not been one in years. It is the same way with herring, to my way of thinking."

"Five years ago this summer, I went down to Gloucester and took a trip on a fishing schooner to the Georges banks. We were cruising along the southern edge of the banks one day when we sighted a school of herring. This school was seventy miles long and thirty wide. There were herring enough in that school to keep all the sardine factories in Maine going for years. Exterminated! I don't believe it!"

FEEDING THE DAIRY COW.

(Lecture by Prof. P. A. Campbell, Farmers' Week, Orono, 1913.)

The vital point to the dairyman in feeding the dairy cow is not the actual cost of feeding, but rather the returns which the dairy cow gives back for each dollar expended in feed. It is the larger net returns that the dairyman should be looking for rather than keeping the cost of feeding low, because the cost can be kept down by half feeding, yet by the up-to-date dairyman it would not be considered economical.

There are two factors which influence the production of the dairy cow. First, breeding, and second, feeding. It is absolutely essential that she inherits those qualities and characteristics which go to make up production. Having inherited production, it is then necessary that she be fed and handled in such a way that she will produce.

Breeding is of no use at all if the cow that has inherited production from her breeding is now allowed to produce according to her inherited qualities. The cow that is needed at present is one that lasts through a long period of usefulness, and works efficiently. A large number of the cows in the State are undoubtedly not producing the amount that they are capable of producing, or that their natural inherent qualities would permit them to do, if given a chance.

A larger ration and one more directly suited to the needs of the cows would help to bring some of the cows into a different class. The ration that the dairy cow needs is one that will supply the different food requirements of the animal; not only what is needed for supplying her body, but in addition, a sufficient amount to permit her to do the work required, whether it be in making growth or in producing milk. The ration should contain some form of succulent, and enough bulky grains should be used in the grain ration to make the whole appear bulky. It should measure up at least a quart to the pound.

It costs us for feeds from \$55 to \$65 to raise a calf from the time it begins to drink, at a couple of days of age, until it has its first calf, at twenty-six or twenty-seven months of age. This is considering all feeds at market prices. It must also be remembered that the heifer is given extra feed the last four months before calving, because the developing calf is drawing heavily upon her for its sustenance. With plenty of good pasture these figures will be reduced several dollars.

The main object of feeding the heifer that is to calve, or the dry cow well, is to get them into shape to milk well after calving. Stimulating feeds at this time permit her to put her body in good condition, because, if she is a proficient milker, she will need to draw upon it heavily after calving before she can be worked onto a full ration. Also, it permits the udder to develop and take on the size that will permit the cow to do her udder work. Extra care and watchfulness should be observed at this time.

As soon as the cow has calved, the object of the feeder should be to work the cow to a point where she will produce the greatest profit without injury to herself. This can only be done by watching the cow carefully, and after she has reached a moderate ration, making sure that for every increase in feed the cow returns a profit.

It must be remembered that it is not always the cheapest feed cow that is the cheapest producer; that it costs about as much to maintain a poor producer as a good producer; that the cow, although she is dry, needs to be fed a sufficient amount to be in good condition and well bagged in calving time; that the cow must be well bred, but that she must be well fed, also, if she is to show the qualities of production which she has inherited; that it costs too much to rear a heifer that proves to be a poor producer, but that it is the cheapest way of getting a good producer.

Invention of a Schoolboy.
Guglielmo Marconi was only fifteen years old when he studied at the universities of Bologna and Padua and began his electrical researches. In the course of the next few years he began the study of the so-called Hertzian waves, or electrical impulses which travel through the air without the use of a wire.

In 1895, when he was only twenty years old, his advanced knowledge on this obscure subject inspired him with the theory that these waves could be sent out and received at will, and in that year he had constructed the first wireless apparatus, the efficiency of which astonished the world.

What is the Good-Will of your Business Worth?

The favorable attitude of the public towards a certain brand of goods is an asset which overshadows those of equipment and stock on hand.

How about your business? Do the retail buyer and the consumer know your product?

If your distribution is interfered with, will there be a demand for your goods? Will the public know your product by sight when it is asked for?

Trained advertising men are ready to help solve the problems.

It is the aim of the Pilgrim Publicity Association to forward BUSINESS PROMOTION and HONEST PUBLICITY in every way possible. Facts and statistics relating to New England business or New England conditions will help.

Communications will be very welcome.

BIRDS AS BUILDERS.

Wisdom Shown in Nest Construction by Feathered Architects.

From *Harper's Weekly*.

There are many wise little architects in the bird world. One species, found in South America, are called "oven birds", for the reason that they build nests in the shape of a dome, with an entrance at the side, the whole effect being almost exactly like that of an oven. They use clay, grass and various plants for material, and as they construct their walls an inch thick the structures when dried in the sun are very firm and strong.

The oven bird divides its house into two separate rooms by means of a partition reaching almost to the top. In the inner room the bird makes a bed of feathers and soft grasses upon which the eggs are deposited.

This bird is at no pains to conceal its nest, but builds in open sight on the leafless branch of a tree or upon a fence or within a barn or other building. Travelers in Brazil see these nests on the top of telegraph poles.

Our own oriole constructs a wonderful nest. It is shaped like a purse six or seven inches long and three or four inches wide. It is made of flax, hair, wool and vegetable fibres. These are matted together until they become of the thickness of felt. The nest is sewed with strong stitches of horse-hair, single horse-hairs used in this way being sometimes two feet in length.

When the bird is near dwelling-houses it sometimes snatches up thread to use instead of the horse-hair. It has been known to steal whole skeins of silk and loose strings to use in its nest building. The female appears to do most of the work of building the nest, the male bird collecting the material.

The tailor bird of India is small, with short wings and a long tail. It constructs its nest by taking two leaves at the end of a twig and sewing them together at their edges, using its bill for a needle and vegetable fibres, with knots to keep them from slipping through the leaf, for thread. Occasionally it makes its nest of one large leaf by sewing the edges together; and it draws the stalk end of the leaf over the nest so as to make an awning, thus protecting it from sun or rain.

The nest is lined with cotton, silky grass, vegetable fibres, and sometimes a few feathers. It is suspended from the very end of a long branch, where it will be out of the way of snakes, monkeys and other unfriendly intruders.

The bower bird of Australia belongs to the starling family. It is very remarkable for the bowers or arbors that it constructs. These are usually placed under the shelter of the branches of some overhanging tree in the most retired part of the forest. They differ considerably in size. The base consists of an exterior and rather convex platform of sticks firmly interwoven, on the centre of which the bower itself is built.

This bower, like the platform on which it is placed, and with which it is interwoven, is formed of sticks and twigs, but of a more slender and flexible kind, the tips of the twigs being so arranged as to curve inward and nearly meet at the top. In the interior of the bower the materials are so placed that the forks of the twigs are always presented outward, by which arrangement not the slightest obstruction is offered to the passage of the bird.

For what purpose these curious bowers are made is not yet, perhaps, fully understood. They are certainly not used as nests, but as places of resort for many individuals of both sexes, who, when there assembled, run through the bower in a sportive and playful manner and that so frequently that it is seldom deserted.

The interest of this curious bower is much enhanced by the manner in which it is decorated at and near the entrance with the most gayly colored articles that can be collected, such as the blue tail feathers of parrots, together with whatever the birds have been able to pilfer from dwelling-houses. They have been known to carry off bits of silk and colored

cotton wherewith to ornament their bowers.

The fairy martin, also found in Australia, is another curious architect. It makes a nest that is shaped like an old flask, with the mouth below, and builds it of mud or clay, which in kneads in its beak at a distance and brings to the nest all ready for use. Six or seven birds work on one nest, one acting as architect, the others bringing the material.

It would seem that hot weather prevents them from kneading the clay just right, for they work only in the mornings and evenings, except on wet days, when they continue their labor at midday. The exterior of the nest is rough, but the interior is smooth and carefully lined with feathers and fine grass.

The fairy bird seems to have no rule as to the location of its nest, following the fancy of the moment, but it must have fresh water near hand not be within twenty miles of the sea. Sometimes it builds its curious bottle-like nest within a decayed tree and sometimes upon the face of a steep rock. Hundreds of its nests will sometimes be built close together, but without the slightest approach to order. Then, again, it will construct an orderly row beneath the eaves of a house.

"Mr. Interlocutor, if a baby swallowed a key, what would you call it?" "I don't know, Mr. Jones. What would you call it?" "A key in A minor."

If the knife and fingers are slightly buttered when seeding raisins, the work will be robbed of its stickiness and discomfort.

WHAT ARE YOU DOING

To Keep Well?

To be still strong and active at 40 or 50, to be well, free from pain and discomfort at 75 or 80. Are you careful about your eating, eat slowly and the right kind of food? Exercise enough out of doors by day. Plenty of fresh air in your sleeping apartments at night? Watching the bowels and liver to keep them active, taking a teaspoonful of "L. F." Atwood's Medicine to quicken them when first symptoms appear? Mrs. O. B. Fuller, Union, Me., writes: "The 'L. F.' Medicine has been our standard remedy for years. Neither my husband, children nor myself have been sick enough for a doctor in twenty-two years. I tell my friends it is because I always have 'L. F.' Medicine on hand, and 'an ounce of prevention is worth a pound of cure.' On sale at all good stores. 35 cents a large bottle. For free sample by mail, address 'L. F.' MEDICINE CO., Portland, Me."

COUNTY NEWS.

BUCKSPORT.

Wiley C. Conary and family spent Sunday with his parents in Bluehill.

Mrs. Harry Nevins, of Somerville, Mass., is visiting her mother, Mrs. Abbie Devereux.

The new steam rock-crusher which it was voted to purchase at the annual town-meeting, has arrived.

Miss Esther Jocelyn and Miss Mary Atwood spent the week-end with Asa Freeman and wife at South Orrington.

Rev. Frederick Palladino, district-superintendent, preached at the Methodist church Sunday morning, and Rev. Dr. Durgin in the evening.

The members of James E. Hall post, G. A. R., and the relief corps attended service at the St. Vincent DuPaul church Sunday morning. The Boy Scouts acted as escort.

Friends here were grieved to learn of the death of Mrs. William Fox at Houlton. The family resided here for many years. About twelve years ago, soon after the death of the father, William Fox, they moved into Aroostook county. Mrs. Fox leaves four sons and one daughter.

The many friends here of Miss Jeanette Croxford, of Brewer, are much pleased at the honors she received at Orono. Miss Una Leach, who represented the E. M. C. S., was one of the eight chosen for the final contest. The prize last year came to a Bucksport young lady—Miss Hazel Towle, daughter of Dr. G. N. Towle, now of Winthrop.

The new seminary building was opened Monday morning at 9 o'clock by the president, F. E. Bragdon, and the entire faculty. All the classes were assigned to the various departments, each one of which is a school in itself. This magnificent building was commenced last June with a general celebration, at which Gov. Plaisted broke ground amid the ringing of bells and the booming of cannon, and music by the Bucksport band. The structure has every modern improvement. The heating, ventilating and electrical plants are all installed.

May 26.

MANSET.

Rev. Mr. McNevin and family have moved to a new parsonage.

Roland Stanley, wife and child have gone to Harrington, where he has employment.

Capt. Sargent, of Winterport, arrived Monday with 9,000 pollock, the first caught for three weeks.

The community supper at Ward's hall Wednesday, May 21, was a success. The proceeds were for new lamps, paint, etc.

Reginald King is at home from Mt. Desert Rock light for a few days. He and his brother Merrill went to Saddle Back Sunday to visit his father, returning Monday.

The Delta Alphas met with Bessie Noyes May 20. A good time was enjoyed, especially the initiation of the new pastor, Rev. Mr. Moore. He managed to get through with very few bruises. Being an Odd Fellow and a Mason, he had met the goat before. Refreshments were served.

May 27.

LILAC.

Oatley Gray and wife, of Surry, called upon friends here last week.

Miss Lida Curtis and Mrs. Ivory Anderson are employed at Mr. Wilder's.

Calvin Young is doing some work at the

cemetery in preparation for Memorial day.

Mrs. Frank L. Curtis and son Neil expect to visit her parents in Ridgewood, N. J., soon.

Some gentlemen from Newton Center, Mass., were here recently looking for a house to rent for the season.

South Surry will know soon if it is to have regular mail service. No carrier has been engaged up to the present time.

A party of men from Cutler and Stockton Springs have rented Leslie Speed's weir privilege and built a weir at Hopkins point.

S. W. Wilder's family are at their summer home. Charles Sawyer and Mrs. Wilder, sr., are with them. Mr. Wilder and a friend arrived Friday evening from Alligator lake, where they have been fishing, with a fine lot of salmon and trout. Mr. Wilder is having a garage built Hollis Bonsey has charge of the work.

May 26.

TRAMP.

SEAL HARBOR.

Albert Dodge is visiting in Ellsworth. Bishop Codman preached at St. Jude's Sunday afternoon.

There will be a dance at the firehouse Wednesday evening.

E. W. Kingsbury and family arrived at their cottage last week.

Earl Holt, of Ellsworth, was the weekend guest of his cousin, Warren Harri-

man. The help arrived at the Herter cottage Sunday. The family expects to come soon.

Mr. Haines, of the Bangor theological seminary, preached at the Congregational church Sunday.

The Seal Harbor teachers attended the Mt. Desert Island teachers' convention held at Northeast Harbor Friday.

May 26.

P.

EASTBROOK.

Greenwood grange met as usual May 24, with an attendance of thirty-one. The question: "Of what benefit is the grange to the farmers in Eastbrook other than the social benefit?" was discussed.

RESOLUTIONS OF RESPECT.

Whereas, The angel of death has again entered our grange and removed from our midst to the great unknown our sister Eliza B. Butler, therefore

Resolved, That we not only mourn the loss of a true sister, but we share in the sorrow of those at home.

Resolved, That our charter be draped in mourning and our badges turned for thirty days, and a copy of these resolutions be spread on our records; one sent to the bereaved family, and one to the Bangor Commercial and Ellsworth American for publication.

SEAL COVE.

Mrs. A. D. Heath, who has been quite ill, is convalescing slowly.

Rev. Mr. McNevin, the Baptist pastor, preached his farewell sermon May 18.

Mate Charles R. Sawyer visited his mother, Mrs. C. D. Sawyer, while his vessel, the McCann, was in Southwest Harbor.

Jack McCrae and wife, of Seal Harbor, spent May 18 in town. Mrs. McCrae, who was Miss Nora Butler, was gladly welcomed by old friends.
